

Ceramics Program Registration Information:

BIG ARTS pottery program offers art education classes led by seasoned artists and experienced art educators.

This program is designed as a learned environment that fosters a space where students create and grow among like-minded people.

We invite you to join our ceramics community and embrace the programming offered.

- **Registration:** Students are allowed to register for one class per each 6-week session.
This allows all patrons the chance to participate in the program.
This eliminates the opportunity for patrons to use the BIG ARTS studios for mass production for personal use.
NOTE:
Students can call the box office the day before a class starts and register for a second class (only) based on availability.
- **Make-up classes:** If a student misses a class during their registered multi-week class, please understand there are no make-up classes offered due to limited space.
- **Single class sales:** We do not sell single-day classes.
- **Substitute classes:** Students cannot take a class (fill in) for a fellow student that will be absent.
- **Open Studio:** only registered students can participate in open studio during their 6-week class session. Open studio offers students extra time to continue and complete their class projects.

If you have any questions, please contact the Art Education Director:
